

UNIVERSAL

CLEANSYS PRO

EXTERNAL FILTER

for Freshwater and Saltwater Aquarium

CLEANSYS PRO

NEW GENERATION OF
EXTERNAL FILTERS

FOUR SIZES AVAILABLE

New range of external filters that work with a low power consumption and include an innovative system of filtering media. With anti-rust ceramic rotor.

730

60L - 200L
730L/H

850

90L - 300L
850L/H

1400

160L - 600L
1400L/H

1800

200L - 800L
1800L/H

Aquarium volume up to
Max. flow r.

PLUG & PLAY

WATER CIRCULATION

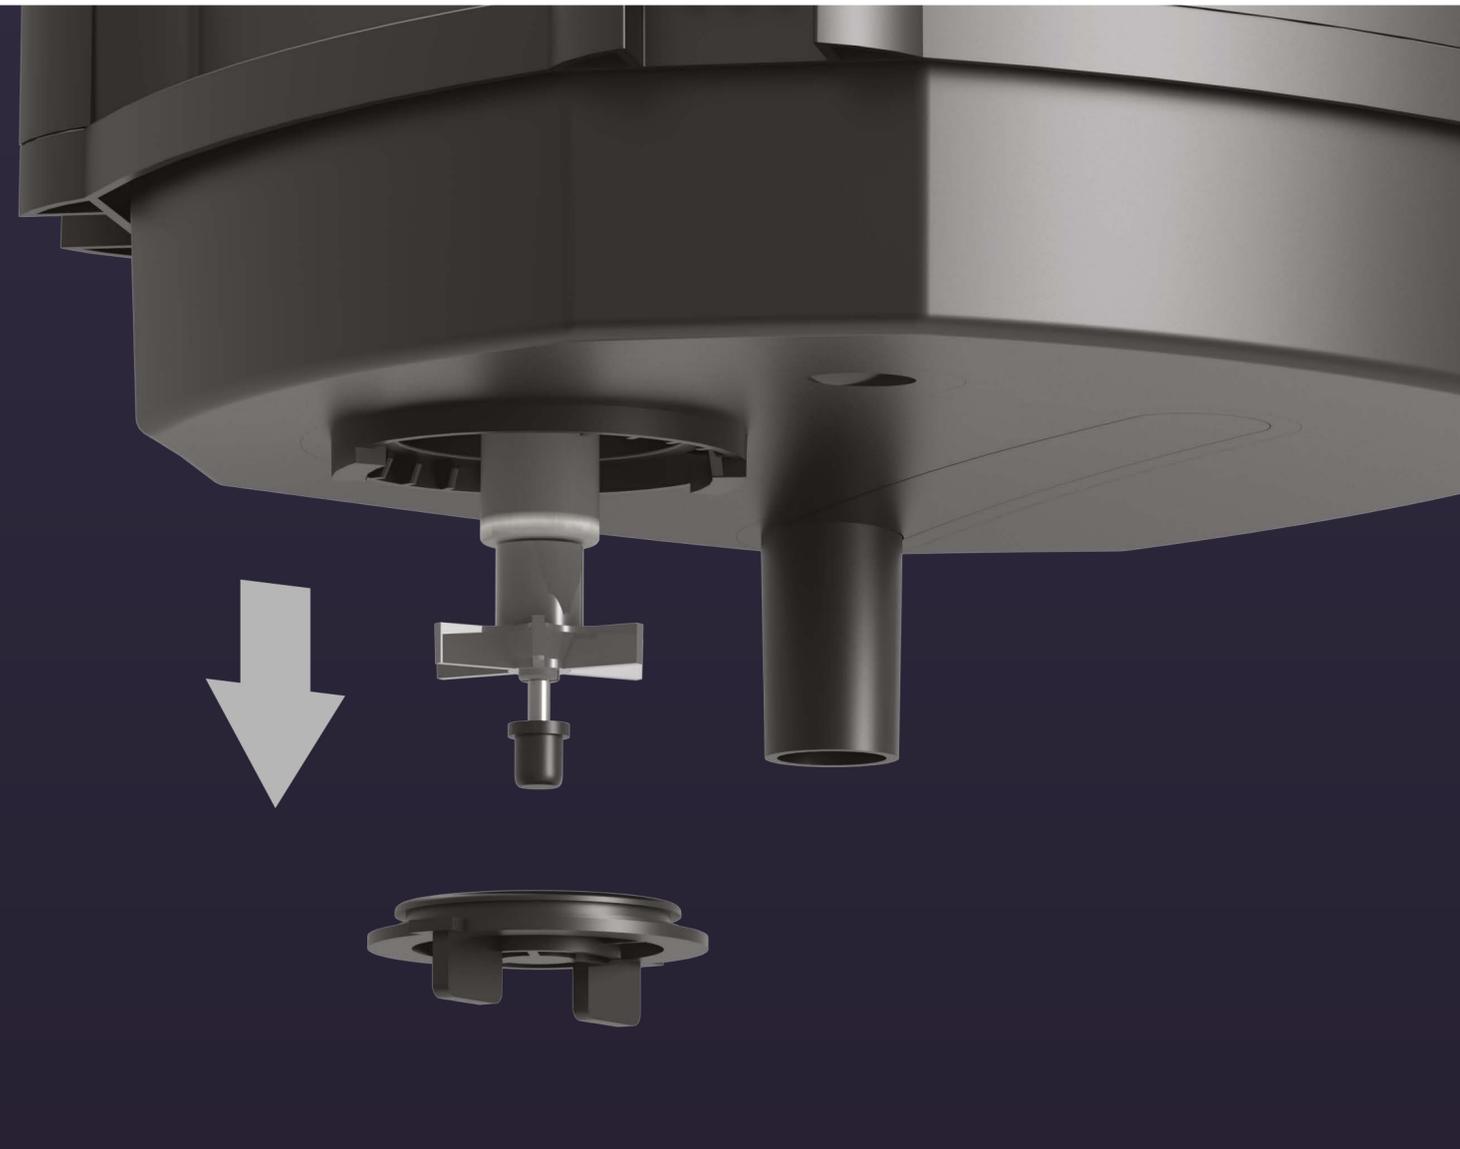

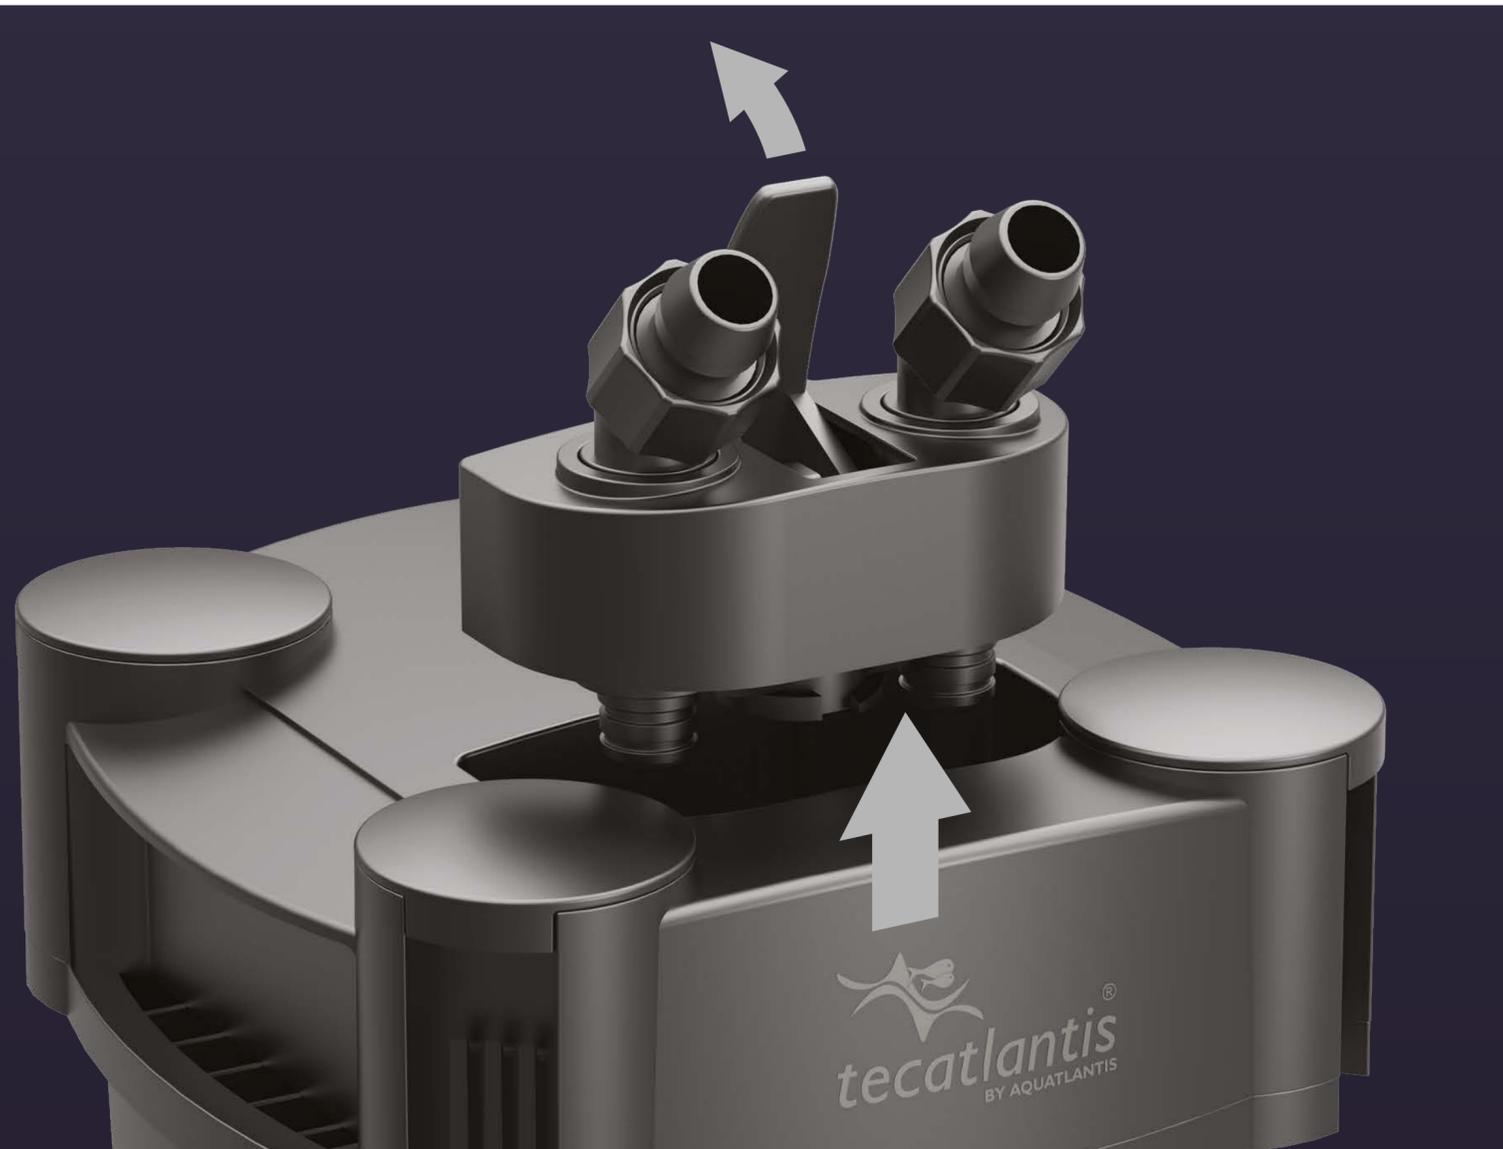

Biological, Mechanical and
Chemical Filtration

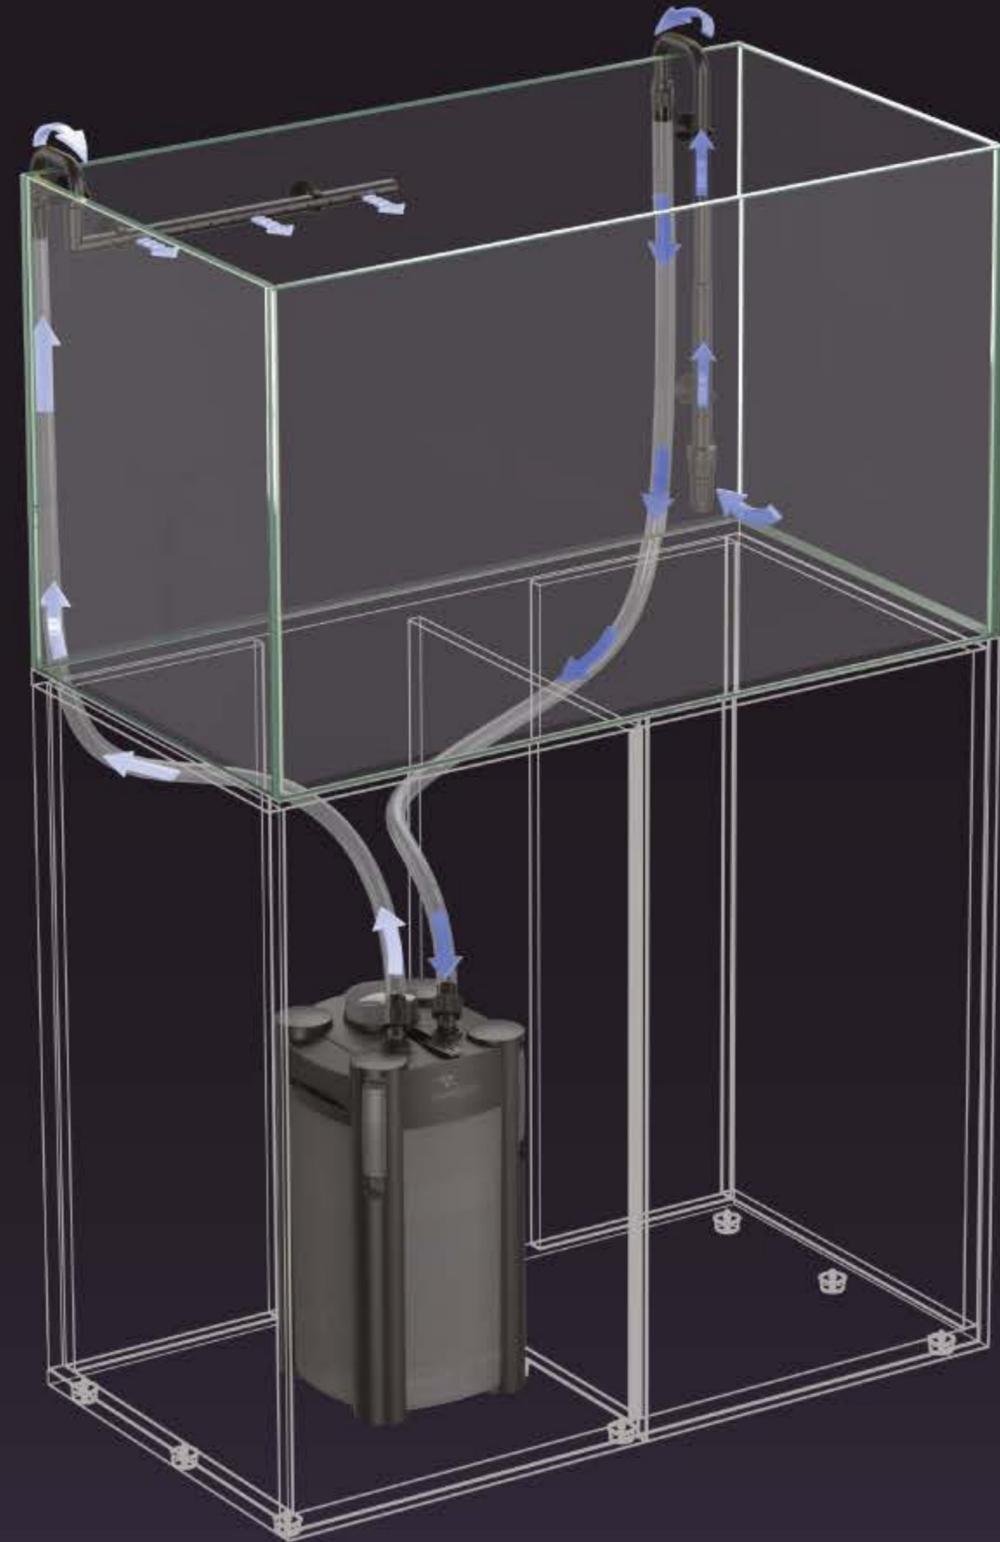

**COMPLETE
WATER
FILTRATION**

EASY MAINTENANCE

WATER CIRCULATION SYSTEM

WATER INLET AND OUTLET
Insert flexible hoses

FILTER PRIMER
To start the filter and pump the water

CLEANBOX PRO

CLEANSYS PRO CARTRIDGES

CLEANBOX PRO

FILTRATION CARTRIDGES

**Fiber, Coarse Foam, Glass Rings, Aquaclay
and Activated Carbon**

FILTRATION

CHEMICAL

ELIMINATES DISSOLVED ORGANIC ELEMENTS

BIOLOGICAL

PROVIDES A HIGH COLONIZATION OF BENEFICIAL BACTERIAL

MECHANICAL

RETAINS THE LARGEST PARTICLES IN THE WATER

CLEANBOX PRO GLASS RINGS

Highly porous filter material made of sintered glass that ensures perfect conditions and efficient reduction of pollutants such as ammonia, nitrite and, with a reduced current flow, also the nitrate.

L, XL

Recommended replacement
every 6 months

CLEANBOX PRO AQUACLAY

Provides optimal conditions to obtain a high colonization of bacteria, essential to the balance of your aquarium.

L, XL

Recommended replacement
every 6 months

CLEANBOX PRO ACTIVATED CARBON

Activated carbon removes dissolved organic waste, bad odors, colours and toxins from the aquarium water, through chemical absorption.

L, XL

Recommended replacement
every month

CLEANBOX PRO COARSE FOAM

Promotes an intense biological decomposition of pollutants which are harmful to your tank, ensuring water purification.

L, XL

Recommended replacement
every 3-5 months

CLEANBOX PRO FIBER

Highly effective as a pre-filter, retaining the smaller polluting particles of the water of your aquarium.

L, XL

Recommended replacement
every month

CLEANBOX PRO FIBER + COARSE FOAM

The foam promotes an intense biological decomposition of harmful pollutants into aquarium water, while fiber, acting as a pre-filter, retains the smallest pollutant particles.

L

Recommended replacement
every month
