

EASYBOX® FIBER

size XS 05231 size S 03167 size L 03172

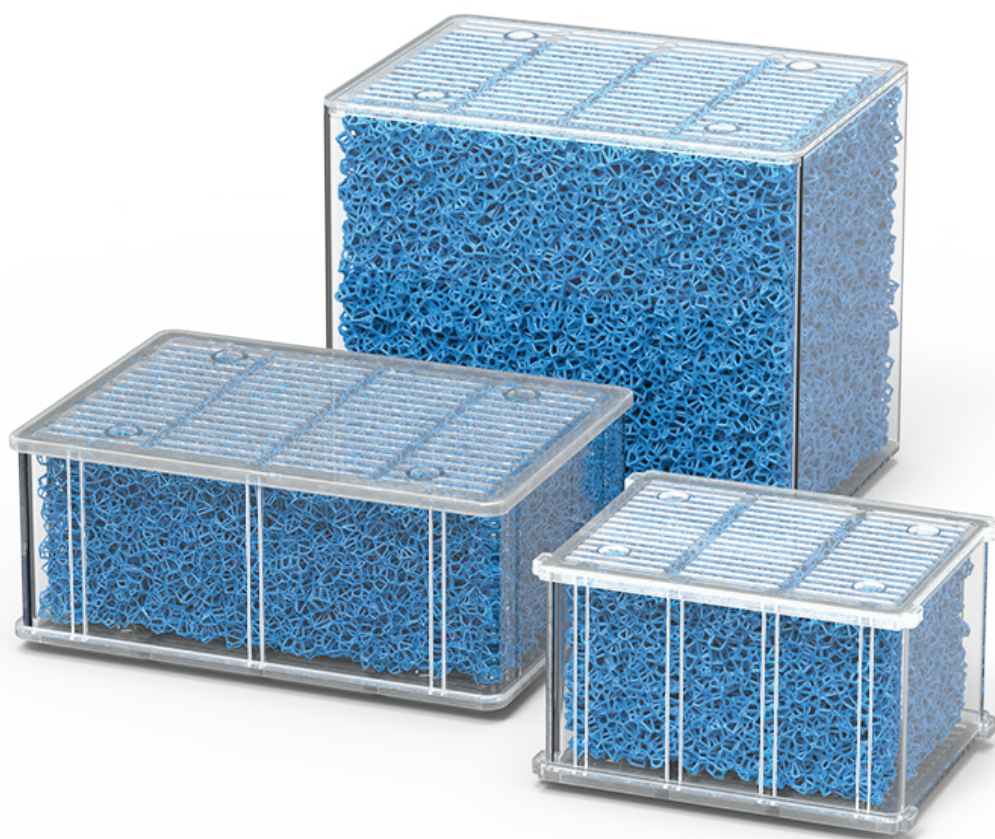

Highly effective as a pre-filter, retaining the smaller polluting particles of the water of your aquarium.
Recommended replacement monthly.

EASYBOX® COARSE FOAM

size XS 05229 size S 03165 size L 03170

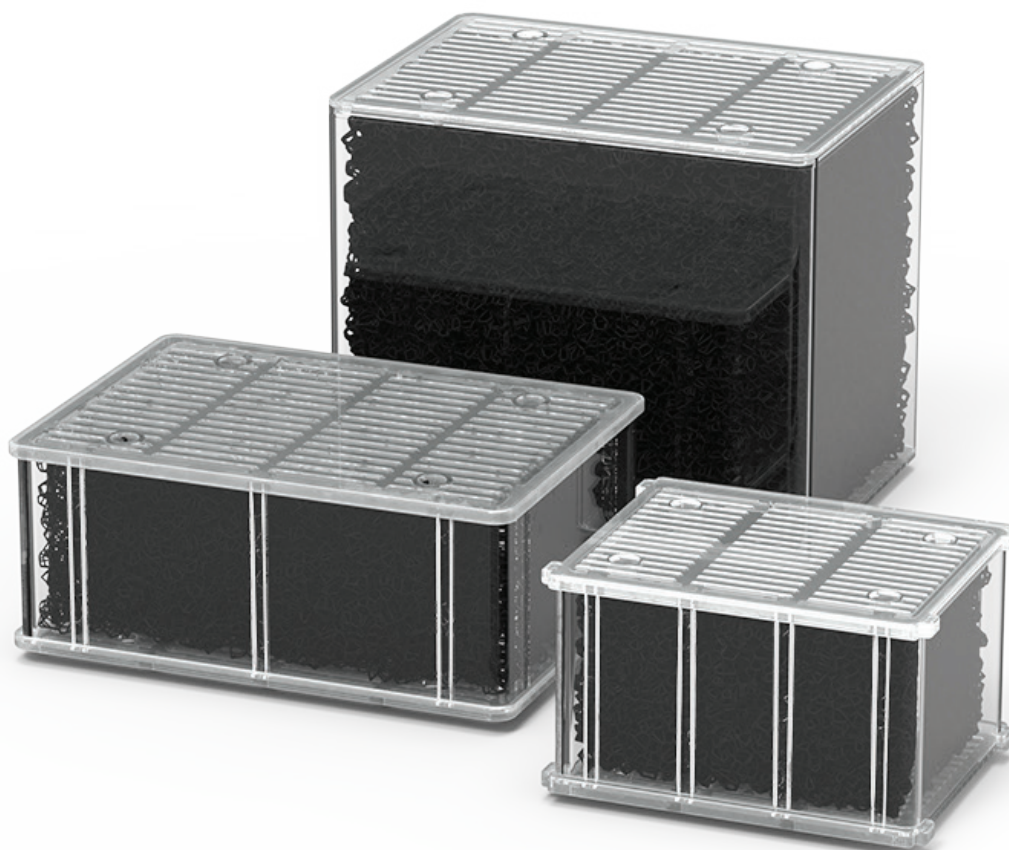

Material specially structured to promote an intense biological decomposition of pollutants which are harmful to your tank, ensuring water purification

Recommended replacement every 3-5 months.

EASYBOX® CARBON FOAM

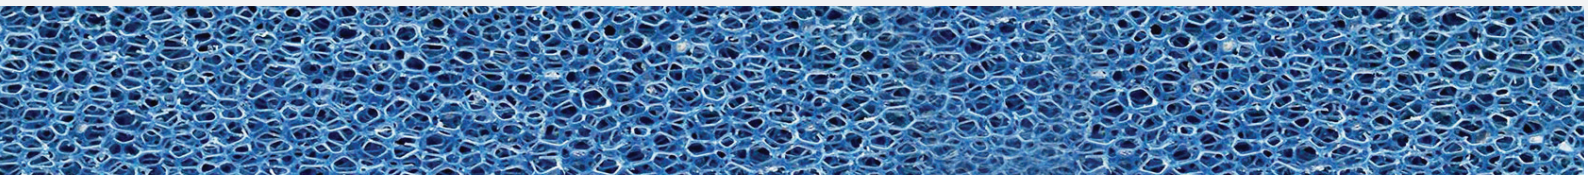

size XS 05228 size S 03164 size L 03169

Eliminates micro algae and medicine residues that make the water turbid and colored, providing clear water without changing the pH.

Recommended replacement monthly.

EASYBOX® FINE FOAM

size XS 05230 size S 03166 size L 03171

Material structured to function as a pre-filter, retaining the existing waste water.

Recommended replacement every 3-5 months.

EASYBOX® AQUACLAY

size XS 05232 size S 03168 size L 03255

Natural product with a highly porous surface, providing optimal conditions to obtain a high colonization of bacteria essential to the balance of your aquarium and well-being of fish and plants.

Recommended replacement every 6 months.

TIP: You may give your filtering media "Aquaclay" a second life by depositing it right at the foot of your plants or bushes.

EASYBOX® ACTIVATED CARBON

size XS 07387 size S 07386 size L 07385

Activated carbon removes dissolved organic waste, bad odors, colours and toxins from the aquarium water, through chemical absorption.

Recommended replacement monthly.

ATTENTION Remove the clear plastic film from the EasyBox Carbon foam cartridge. Before using the EasyBox cartridges, rinse them well in clean running water.

EASYBOX® GLASS RINGS

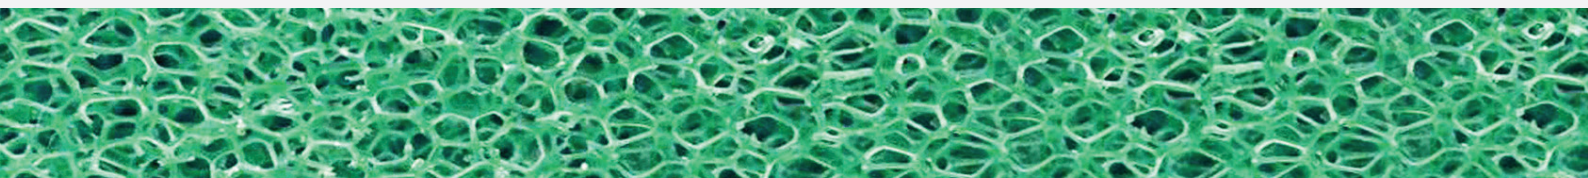

size XS **07392** size S **07391** size L **07390**

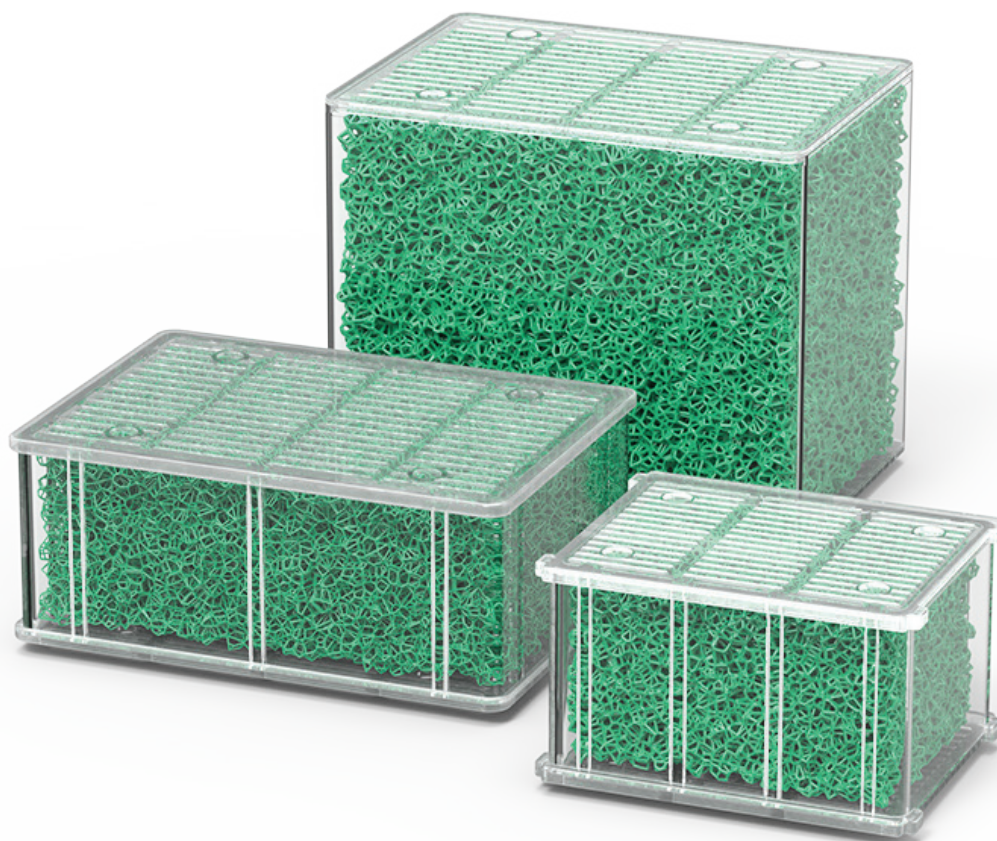

Highly porous filter material made of sintered glass that offers to the beneficial microorganisms the best conditions and ensures efficient reduction of pollutants such as ammonia, nitrite and, with a reduced current flow, also the nitrate.

Recommended replacement every 6 months.

EASYBOX® CLEANWATER

size XS 08839 size S 08840 size L 08841

Cleanwater facilitates the maintenance of your aquarium. It reduces the concentration of undesirable substances in water which promote unwanted growth of algae. Absorbs phosphate, nitrite and nitrate without deleting the important trace elements. Suitable for fresh or saltwater.

Recommended replacement monthly.
